

As the founder and president of SK Learning Center, I would like to welcome you all!!! At a very young age, I already determined that teaching the younger generation is exactly what I will spend my future doing. Luckily, I was able to accomplish this goal by becoming an Educator and establishing SK Learning Center. Teaching has become my biggest passion and sharing this talent with the world is what I live for.

SK Learning Center is an educational organization that allows children to learn in a more enjoyable way. We have a goal to set a strong foundation for children at a young age in order for them to have a successful future. Our lessons are designed in a unique approach in order to reach each child individually. Our lessons help build knowledge through a creative and fun way where educators grow a strong relationship with each student individually.

When joining us, every student must go through an evaluation which helps us determine where the student stands as well as what we must work on with the student. After the evaluation each student will be placed with a tutor, who will work with them through every lesson. Our tutoring services give your child the extra time and individual attention needed to build and improve knowledge. We help students who are behind catch up, as well as, help others go ahead in their learnings.

We also provide extra services such as Foreign Languages, Chess, Coding and much more.

We are ready to help your child DREAM, STRIVE and SHINE !!!

Love,
Stephanie Khanukov-Izrailov
